

Open Invitation to my constituents,

For the past 11 years I have been proud to serve as your County Commissioner Pct 3. I am proud of having led many initiatives that have elevated the quality of our county government. We raised our county bond rating without increasing our tax rate. Be assured that as long as the Lord grants me spirit I will continue to be your public servant and your voice and facilitator at commissioner's court. Much is at stake for the coming years and the collective actions of the commissioners court will determine the flow of public investments. Our collective involvement will provide the guidance to assure that existing plans flow to completion.

By and through your support I have worked hard and succeeded in attracting Federal money for potable water, sewer systems, road pavement projects and sidewalks, I have secured the funds to build two community centers, five parks and built three county annexes. We have secured eight new district and county courts for greater access to justice. We now have one of the most efficient computerized systems in the state and a thorough electronic voting system. We have the best equipped sheriffs department in the state. Our county jail is considered exemplary for design and function. All El Paso county residents, not just those living within the city now benefit from our countywide trash collection system.

El Paso county has come a long way in eleven years and we are still moving forward. As we go forth we are about to start construction of a new county annex in Ysleta which will bring the services provided by the county closer to you. Another annex is planned for the Canutillo area. We have received the presidential permit for a new commercial Port of Entry in Tornillo/Guadalupe. Congress has appropriated \$4.5 million for the design of inspection facilities and is in line to receive \$54 million appropriated funds for construction. We have secured \$4.5 million for road construction and have been approved to receive an additional \$17.5 million from the U.S. Department of Transportation. We plan to start road construction this winter!

Over the years I have had the honor to touch the lives of thousands of people with positive deeds. My integrity for the first time is being challenged. Where others may allow these types of challenges to discourage them, I am now more then ever determined to continue and complete these projects and remain steadfast in my focus. Whatever the motive I am confident I will prevail. With your continued support and my determination to continue my work as your true and diligent leader I am not going to be deterred from continuing to do the best I can to make our precinct shine.

I invite you to attend a scheduled meeting on October 24, 2007 at Andale Restaurant East from 5:30 to 7:30 PM. The meeting is intended to discuss my re-election and answer all questions..

I ask for your vote of confidence and your contribution to help raise money to fund my re-election. All contributions are to be made by check made out to Miguel A Teran re-election campaign., You may take it to the meeting or mail it to 9111 San Fernando Ct. El Paso, Texas 79907

I look forward to our meeting. Thank you..

Sincerely,

Miguel A. Teran
County Commissioner Pct 3
